September 11, 2015

To Whom It May Concern,

This is to certify that the School of Medicine in Katowice, Medical University of Silesia follows the regulations of the Ministry of Science and Higher Education for the policy of transfer of credits obtained by a student at another institution, as approved with the Ministry Resolution of September 14, 2011.

Based on the above regulation, the decision pertaining to credit transfer is made by the Dean on student's request, upon verification of students' previous educational background.

Credits earned at another school may be recognized by the Dean and transferred to student's educational records at the Medical University of Silesia only if the study curriculum and educational program at both institutions are equivalent. I.e., the number of hours for a particular course that the student completed at previous school must be equivalent to the number of hours for the same course in the curriculum of the Medical University of Silesia, as well as the course contents followed at previous school must correspond with the course contents implemented at the Medical University of Silesia.

Due to diversity of students' applications for credit transfer, the Dean's decision in this matter is made individually and separately for each application, based on above cited regulations.

Sincerely yours,

Professor Jan E. Zejda, MD, PhD
Dean of the School of Medicine in Katowice
Medical University of Silesia
