

Safety procedures at the Medical University of Silesia

Each building of the Medical University of Silesia is protected by the security service. At the entrance to each facility there's a lodge with security checkpoint. In case of any threat or crime a security officer at the nearest security checkpoint should be alerted.

It is required to report any hazards, incidents and injuries.

Types of hazard that may occur in the facilities of the Medical University of Silesia:

- a. crimes against human life and health (including crime, assault)
- b. crimes against property
- c. disruption of order, violation of the University area by unauthorized persons
- d. discovering dangerous cargo and hazardous cargo shipments
- e. fire, flood, construction disaster, natural disasters

In case of any crime on campus initial steps are taken by the security officer.

In case of crime on campus police is informed immediately.

In case of finding any unidentified objects it is required to report to the nearest security checkpoint.

It's forbidden to touch or move any unrecognized/suspected objects.

Upon check in the dorms each student gets a resident card to carry with him/her at all times. An unauthorized person willing to enter campus will be requested to identify himself/herself and specify the reason of their visit. Each visitor will be registered (time of entry and exit).

All students who are residents of the Student Dormitory are obliged to abide by the Rules and Regulation of the Student Dormitory (for review on the website and at the Dorm's Office), especially:

- maintain cleanliness and order of the occupied rooms and rooms of the common use,
- comply with safety and fire regulations as well as with manuals of gas and electric equipment,
- immediately inform the manager, administration of SD or security about any thefts, burglary, break-down of equipment and also in the case of sudden illness or a roommate accident,
- conduct properly to enable other residents to work and rest,
- using rooms, equipment and furnishing properly.

The following behavior is strictly forbidden and the Student Dormitory:

- using electric cookers, radiators, kettles and heaters in their own rooms without permission of the SD manager,
- using self-made installation, repairing and modifying of electric, sanitary, phone, computer, and antenna equipment, as well as others,
- producing, selling, serving and consuming alcoholic beverages and drugs,
- smoking,
- gambling,
- possession of guns and pneumatic weapons.

Upon your arrival to the campus make yourself familiar with the procedures in case of fire which can be viewed at the website or at the Dean's Office. Notices about the fire evacuation routes and evacuation procedures are displayed in all University buildings.

Student is strictly forbidden to bring in or use or distribute any narcotics or intoxicating agents and other dangerous substances or items within the University area.

Pulling together and reporting injuries and hazards will make our University a safe place for all students and employees.
